

Boarding Principles and Practice

At Clifton College, we aspire to:

1. Offer a safe environment for all pupils, both physically and emotionally. The wellbeing of the pupils is central to everything we do at Clifton.
2. Provide a homely environment in the boarding houses and excellent facilities throughout the College.
3. Provide our Boarders with the opportunities needed to fulfill their potential in all areas of school life.
4. Create an environment where leadership, responsibility and self-reliance are fostered.
5. Establish an openness in communication between staff, pupils and parents, trusting in a collaborative culture to bring about the most positive outcomes for the Boarders in our care.
6. Promote tolerance, inclusiveness and a liberal outlook in all that we do, ensuring that all members of our boarding community feel valued and respected.

It is important that all members of the College community are aware of these guiding principles and are able to make a contribution to the achievement of them.
